AEROJET

About the company

Aerojet, a GenCorp Inc. (NYSE: GY) company, is a major space and defense contractor specializing in missile and space propulsion, and defense and armaments. Since the company was founded in 1942, it has led the way in the development of crucial technology and products that have kept America strong and furthered human's exploration of space. Aerojet works on projects that are substantial enough to be challenging, yet focused in objective, so your individual contribution is never lost in the process. It stresses a strong ethical workplace, both in relation to the work it does and the sense of fairness that is extended to all employees, regardless of background. Aerojet believes that a primary reason for its success is its focus on safety, quality, performance, schedule and cost. These priorities are the framework for everything that Aerojet

does and allows it to continue to produce quality products and technologies for which it is known.

Contract award date - May 2009

Award amount - \$46 million

Description of contract

Aerojet was awarded the Large Class (LC) Stage II Technology Demonstration contract from the U.S. Air Force's 526th ICBM Systems Group. The program is over a three-year period and includes delivery of a Stage II asset for flight demonstration.

Type of suppliers who should respond

Aerojet has established a Supplier Diversity Program to ensure that small businesses have opportunities to do business with them. Interested small, disadvantaged, veteran, HUBZone or women-owned businesses may contact Aerojet.

ALL STAR

About the company

Since 1983, All Star has built its reputation one job at a time by exceeding its customers' expectations. "Doing the job right the first time" are words it lives by, demonstrated by its customers who consistently select it for follow-on work after the successful completion of initial contracts. Its diverse service lines span aerospace support services, facilities operations and maintenance, military family housing maintenance, renovation and privatization, logistics, construction, fleet maintenance and integrated facilities maintenance. As a privately owned firm specializing in military, government and commercial contracts, it has more than 1600 personnel dedicated to successfully completing each and every job. All Star has become an industry leader by working each day to keep its promise of quality, efficiency and effectiveness.

Contract award date - February 2009

Award amount - Firm-fixed priced contract

Description of contract

The Department of Treasury announced that All Star Facility Services was awarded a major contract to provide facility maintenance (FM) at the Office of Thrift Building located in Washington D.C. This is a five-year, firm-fixed priced contract. This is All Star's third FM win in Washington D.C.

Type of suppliers who should respond

All Star is proud to offer a small business development program that allows it to be an advocate for a number of emerging small businesses and provide greater value to its customers. It continually seeks out small business partners in areas of procurement, services and subcontracts. Through these partnerships, it broadens its range of services and maintains competitive pricing while helping new businesses become strong, viable service providers.

GENERAL DYNAMICS

About the company

Formed in 1952, General Dynamics grew internally and through acquisitions until the early 1990s, when it sold nearly all of its divisions. Beginning in 1995, the company expanded those two core defense businesses by purchasing other shipyards and combat vehicle-related businesses. In 1997, to reach a new, expanding market, General Dynamics began acquiring companies with expertise in information technology products and services, particularly in the command, control, communications, computing, intelligence, surveillance and reconnaissance (C4ISR) arena. In 1999, the company purchased Gulfstream Aerospace Corporation, a business-jet aircraft and aviation support-services company. Over the past 10 years, General Dynamics has acquired and successfully integrated 43 businesses, including three in 2006. General Dynamics focuses on creating shareholder value while delivering superior products and services to military, other government and commercial customers. The company emphasizes excellence in program management and continual improvement in all of its operations. General Dynamics values ethical behavior and promotes a culture of integrity throughout all aspects of its business. This culture is evident in how the company deals with shareholders, employees, customers, partners and the communities in which it operates.

Contract award date - June 2009

Award amount - \$101.9 million

Description of contract

General Dynamics Advanced Information Systems, a business unit of General Dynamics was awarded a contract by the U.S. Joint Forces Command (USJFCOM) to provide mission support services to the USJFCOM Joint Systems Integration Center (JSIC). This is a five-year single-award, indefinite delivery/indefinite quantity contract.

Type of suppliers who should respond

General Dynamics champions small businesses as subcontractors. It shares a common goal; namely, to afford America's small business community maximum opportunity to participate in the performance and success of the Government prime contacts entrusted to us. It strives to establish mutually beneficial relationships with qualified small businesses, small disadvantaged businesses, women-owned small businesses, veteran-owned small businesses, service disabled veteran-owned small businesses, HUBZone small businesses, historically black colleges and universities, and minority institutions (MI).

RAYTHEON

About the company

Aspiring to be the most admired defense and aerospace systems supplier through world-class people and technology, Raytheon is a technology and innovation leader specializing in defense, homeland security and other government markets throughout the world. With a history of innovation spanning 87 years, Raytheon provides state-of-the-art electronics, mission systems integration and other capabilities in the areas of sensing; effects; and command, control, communications and intelligence systems, as well as a broad range of mission support services.

Contract award date – June 2009

Award amount – \$150 million

Description of contract

The Office of Naval Research (ONR) has awarded Raytheon Company a 12-month contract to develop the preliminary design of a 100 kilowatt experimental Free Electron Laser for the U.S. Navy. This preliminary design is the first of a three-phase ONR Innovative Naval Prototype program worth more than \$150 million.

Type of suppliers who should respond

The goal of Raytheon's Supplier Diversity Program is to provide an environment that fosters the inclusion of businesses owned and controlled by minorities, women, and small businesses (including small businesses owned by minorities, women, service disabled veterans, and small businesses located in HUB Zones). Suppliers wishing to participate must register with its Supplier Diversity Program.
