

If you want to increase your Government Business you need to make your web site **Government Friendly**

We can increase your government business by making your web site government friendly. Our 30 years experience helping companies sell more to Government gives us the experience to make your web page a **Government Selling Tool**.

We will set up your Marketing/Selling page in just days without any set up cost. PLUS we will maintain that page and keep it current with the latest government procurement standards updated monthly.

ALL AT NO EXTRA COST

Your Government Marketing/Selling Web Page will contain:

Direct Link to your Catalog
If you offer products or equipment for sales to government, we will link your page to a digital catalog for government.

Your digital catalog will include:
 A complete product/service description
 An image for each product or service
 National part number
 Federal Supply Code
 Milspecs
 Ordering information

Product/Services information
Capacity Statement
Company Background
Sales Contacts for Government

Duns Number
CAGE Code
NATO CAGE Code
Credit Cards accepted
GSA Contact number and link
Defense Logistic Agency number and link
Current and past government contract experience

We provide the Government Buyers link on your web page.
Choose from many style Icons.
